

**Connected Resources for Ports and Logistics can be the difference between Life and Death in the Workplace**

Your employees at your facilities must be safe and secure while they are on the property. In addition to safety, lowering costs and being efficient also is important. Here are some of the features and benefits to realize with a VOS CoRe solution:

**CoRe**  
Connected Resources by VOS

Ports & Logistics professionals manage thousands of resources around the world. They are compelled to reduce costs and required to meet complex customer demands. CoRe empowers managers with a centralized resource management solution.

**Shock Detection**

In case of fall or major body shock.

**Unauthorized Zone Entry Alert**

Safety managers get immediate notification.

**Emergency Evacuation**

Receive alert buzzer and track attendance at designated location(s).

**Extended Working Hours Alert**

Safety managers get immediate notification.

**Contact Tracing**

Blue-tooth for proximity tracing.

**FEATURES AND BENEFITS**

- **Global scale managing massive quantities of resources across geographically disparate regions**
- **Increase efficiency by having the resources where and when they are needed with CoRe’s accurate cargo arrival time estimates**
- **Worker, equipment, fleet, and tool/asset tracking using site sensors for location-based mapping with Man Down/SOS Alert Notification, time sheets, etc.**
- **Quantified key performance analytics using AI optimized algorithms reporting real-time insights**

**Meet the world’s smartest industrial safety device:**
